### Some comments by the students

- I enjoyed Dr. Zubairi. I learned a great deal in C++. No weaknesses-he always had the answer
- Explains topics well
- No weaknesses. Makes the class more enjoyable with humor. Yes I would take another course from him
- I liked him. I will take him again
- Yes! Zubairi rules
- Went through PowerPoint too fast sometimes
- Lab requirements were too much specially since it was only 1 credit (**NOTE: Lab portion of CSIT120 has been discontinued w.e.f. Fall 2001**)

### Some comments by the students

- I think it should be 1 hour long, 3 days a week. Other than that, it was very good
- It was good. Sure, I'd take another class from him
- There is a lot of info put on a 10 Q(uestions) test
- This guy knows his stuff. No weakness. I would take another class from him
- The projects were good, relevant and helpful. He took suggestions before the end of the course. I felt he used them well and was a better teacher for it
- Too much info! Overwhelming (Did not like PowerPoint presentations at all)
